NAVEEN MISHRA

Senior Full Stack Developer (.NET Core / .NET / React / Angular / Azure / AWS)

Address: House no 83, Doddakallasandra, Kanakpura Road, Bangalore 560062
Contact: +91 9315240356 | E-Mail: naveen.mishra02@gmail.com

OBJECTIVE

To establish a position in which I can utilize my skills and abilities in the field that offers professional growth while being resourceful, innovative and flexible.

CAREER SUMMARY

Result oriented professional with 14.7 years of Experience as a Full Stack Developer on Microsoft platform.

- Hands on Experience on Azure, Azure AD (Global Administrator role), AWS, C#, ASP.Net, Micro services, Hang fire jobs, .Net Core, React, Angular, SQL Server, JavaScript and J-query.
- Expert in writing Procedure, Function, Cursor and trigger in SQL server.
- Expert in creating tables, views, jobs, dynamic Procedure in SQL server.
- Good understanding of MS Azure, Power Shell, MS-Access and MS-Excel.

TECHNICAL SKILLS

Microsoft Technologies	Azure, Azure AD (Global Administrator role), AWS, .NET Core, ASP.NET, ADO.NET
Programming Languages	C#, JavaScript, J-Query, HTML, React, Angular
Frameworks	Dot Net 3.5 / 4.0 / 6.0 or later
RDBMS	MS-SQL Server 2008 R2 or later
Environment & Tools	Agile DevOps environment, MS Access, Word, Excel, PowerPoint

PROFESSIONAL SUMMARY

- Over 14.7 years of experience as a Full Stack Developer on Microsoft Technologies.
- Azure, Azure AD (Global Administrator role), AWS, .NET Core, React, Angular, ASP.Net 2.0/3.5/4.0/6.0 or later, ADO.NET, Ajax, HTML, SQL Server-2008 or later, JavaScript, J-query.
- Knowledge for building .Net Core APIs, Web Services, Micro Services, Web Applications (Angular/React/.Net), Experience with Git.
- Knowledge of SOA: (SOAP, REST).
- Knowledge of Agile DevOps environment.
- Flexible and versatile to adopt any new environment, work on any project.
- Knowledge in writing SQL Queries and T-SQL using MS-SQL Server.
- Good knowledge of DBMS, programming and designing database structure.

EXPERIENCE SUMMARY

Sr. Full Stack Developer	Programming.com	August 2024 – Nov 2025
Technical Team Lead	BirlaSoft	November 2023 – Feb 2024
Team Lead	Xetech Private Limited	December 2022 – July 2023
Sr. Full Stack Software Developer	Diverse Lynx India Private Limited	October 2021 – Dec 2022

Sr. Programmer	VELOCIS SYSTEM PVT LTD	January 2015 – September 2021
Assistant Programmer / Programmer	Cyber Q Consulting PVT. LTD Delhi	October 2010 – December 2014

KEY CONTRIBUTIONS & PROJECTS SUMMARY

Project: Automon Catalis / Advant CargoSprint (Mobile Programming.com)

Technologies: .NET Core 8.0, W/SQL, Angular, AWS Technologies | Team Size: 6

Role & Responsibilities: I was involved in designing and developing backend services, implementing message-based topics, and contributing to new UI development. I worked on integrating backend APIs with the user interface, ensured smooth data flow between components, and collaborated with the team to deliver scalable, reliable, and user-friendly application features.

Description: This tool is an enterprise-level warehouse management and monitoring system designed to track, manage, and maintain warehouse data for the organization across multiple countries and geographic locations. It provides centralized visibility into inventory, operations, and system status, enabling efficient data management, consistency across regions, and improved operational decision-making.

Project: Stryker (Birlasoft)

Technologies: .NET Core 8.0, SQL Server-2022, Micro Services, AWS Technologies, SSO | Team Size: 4

Role & Responsibilities: I was responsible for developing and enhancing microservices using .NET Core 8.0, implementing REST APIs, integrating SSO authentication, optimizing SQL Server 2022 queries, and ensuring seamless integration between legacy and newly developed services.

Description: This tool is an enterprise-level warehouse management and monitoring system designed to track, manage, and maintain warehouse data for the organization across multiple countries and geographic locations. It provides centralized visibility into inventory, operations, and system status, enabling efficient data management, consistency across regions, and improved operational decision-making.

Project: XeHealth

URL: https://xehealth.co.uk/ | Technologies: .NET Core 6.0, Angular 16, AWS Technologies, SQL Server-2019, SSO, SiteCore, CMS | Team Size: 4

Role & Responsibilities: I was involved in Development of multiple components and E-Claim and HL7 Integration and part of database designing. Implementation of e-commerce changes to development, and testing.

Description: This tool is used to monitor patient demographic information and manage hospital details like resources, doctors' details and availability, schedule patients and control all EMR (Electronic Medical Record) to integrate with govt data.

Project: TruHealth

URL: https://emrppu.trudoc24x7.info/app/patient/ | Technologies: .NET Core, Angular, AWS Technologies, SQL Server-2019, SSO, SiteCore, CMS | Team Size: 6

Role & Responsibilities: I was involved in Development of multiple components and E-Claim and HL7 Integration and part of data based e-signing. Implementation of e-commerce changes to development, and testing.

Description: This tool is used to monitor patient demographic information and manage hospital details like resources, doctors' details and availability, schedule patients and control all EMR (Electronic Medical Record) to integrate with the government data.

Project: Food Waste Report Tool

Client: TCS (Tata Consultancy Services) | URL: https://foodwastereportingtool.azurewebsites.net/ | Technologies: .NET Core, SQL Server 2019, SSO, Azure Technologies, SiteCore, CMS, Epicor/Kinetic ERP | Team Size: 2

Role & Responsibilities: I Played a key role in SDLC execution, contributing to development, database design, and implementation of e-commerce functionality. Collaborated with stakeholders and QA teams to ensure accurate requirement implementation and reliable system performance. Worked on enterprise-level application integrations and workflow automation concepts aligned with Epicor/Kinetic ERP environments.

Description: This tool is designed to monitor, analyze, and reduce food wastage across organizational units located in Sweden and Germany. The system captures and processes wastage data from multiple sources, provides centralized reporting and insights, and

supports informed decision-making to improve operational efficiency, compliance, and sustainability initiatives within the organization.

Project: Dibber (HR Integration Tool)

Client: TCS/Laringsverkstedet.no | URL: https://portal.azure.com/#home | Technologies: .NET Core, PS Scripts, Web API, SQL Server-2019, SSO, Azure Technologies, Epicor/Kinetic ERP | Team Size: 2

Role & Responsibilities: Global Administrator Role with 4 country subscription as owner role. I was involved in Development, part of the SDLC of the project and also part of database designing. Implementation of e-commerce changes to development, and testing. Automatic Integration of Users and their account creation in Azure AD using Web API Services developed in .NET Core. These API hosted in Azure cloud and called automatically using Azure Function App with a time trigger. Managing Sync Services on On-perm AD.

Description: This is Lærings verkstedet, the largest private kindergarten chain in Norway, a large organization with a goal of developing and operating the best kindergartens in Europe. Development goal is making users automatically get created in Azure AD from on-perm AD for different countries like Sweden, Norway, Finland, Germany, Hong Kong, Dubai, etc. Service takes data from respective country HR on-perm AD and creates account or Organization Unit group in Azure AD. O365 License Assignment to the users, Group assignment to the users, send password of newly created users to their respective managers, Remove User from Azure AD, Deactivate User in Azure AD. It's used to enable enterprise applications SSO using MFA.

Project: Integrated Management Information System (Entry Module)

Client: Ministry of Jal Shakti (Department of Drinking Water and Sanitation) | URL: https://ejalshakti.gov.in/IMISWeb/RWSMain.aspx | Technologies: ASP.NET, C#, J-Query, SQL Server-2008 with Stored Procedures, Functions | Team Size: 6

Role & Responsibilities: I was involved in Development, part of the SDLC of the project and also part of database designing. Implementation of e-commerce changes to development, and testing.

Description: This is a National level web application which is issued for the entry module where we enter all information about Water Supply schemes and Water Quality data in rural areas. There are many roles for users i.e. Admin level, State level and District level. Admin restrict the user based on permission.

Project: Integrated Management Information System (Reporting Module)

Client: Ministry of Jal Shakti | URL: https://ejalshakti.gov.in/imisreports/IMISReportLogin.aspx | Technologies: ASP.NET, C#, SQL Server-2008 with Stored Procedures, Functions, CMS | Team Size: 6

Role & Responsibilities: I was involved in Development, part of the SDLC of the project and part of database designing. Implementation of e-commerce changes to development, and testing.

Description: We are managing a separate web-based application for reporting purposes which contains the information about water sources and Govt. schemes which are applied on those sources and current status of Water sources. All reports are in tabular format. Users can download the data in different formats like excel, word and html printable formats.

Project: IMIS Rural Water Supply Dashboard

Client: Ministry of Jal Shakti | URL: https://ejalshakti.gov.in/waterdashboard/default.aspx | Technologies: ASP.NET 3.5, C#, J-Query, XML, MSSQL Server 2008, HTML, High Chart | Team Size: 6

Role & Responsibilities: Development and maintenance

Description: This application shows the data in tabular as well as chart format. Charts are developed using fusion charts. Fusion chart is a third-party tool. With the help of these reports User analyses physical and financial progress of state and district.

Project: ISC Ver.2.0

Client: Ministry of Jal Shakti | URL: http://ejalshakti.gov.in/ISC/frmGrievanceEntry.aspx | Technologies: ASP.NET 3.5, C#, J-Query, XML, MS SQL Server 2008, HTML, High Chart | Team Size: 6

Role & Responsibilities: Working in business logics (coding), Data Access Layer, Develop Saving Modules.

Description: ISC is application software for Ministry of drinking water and Sanitation. This software gets Citizen Information / Grievance Redressal.

Project: Swachh Samiksha

Client: Ministry of Jal Shakti | URL: https://swachhbharatmission.gov.in/SwachhSamiksha/index.aspx | Technologies: ASP.NET 3.5, C#, jQuery, XML, MS SQL Server 2008, HTML | Team Size: 4

Role & Responsibilities: Working in business logics (coding), Data Access Layer, Develop Saving Modules

Description: Swachh Samiksha is application software for the Ministry of Drinking water and Sanitation. This software gets the Ministries feedback on Swachh Bharat Mission.

Project: MISC

Client: Ministry of Jal Shakti | URL: http://ejalshakti.gov.in/misc/home.aspx | Technologies: ASP.NET 3.5, C#, jQuery, XML, MS SQL Server 2008, HTML | Team Size: 4

Role & Responsibilities: Working in business logics (coding), Data Access Layer, Develop Saving Modules

Description: MISC is application software for the Ministry of Drinking water and Sanitation. This software gets general innovations/products/technologies mission feedback.

Project: SBM Media

Client: Ministry of Jal Shakti | URL: http://ejalshakti.gov.in/isc/MediaHome.aspx | Technologies: ASP.NET 3.5, C#, jQuery, XML, MS SQL Server 2008, HTML | Team Size: 4

Role & Responsibilities: Working in business logics (coding), Data Access Layer, Develop Saving Modules

Description: SBM Media is application software for the Ministry of Drinking water and Sanitation. This software gets coverage of Media reports for SBM.

Project: Jal Shakti Abhiyan

Client: Ministry of Jal Shakti | URL: https://ejalshakti.gov.in/JSA/JSALogin.aspx | Technologies: ASP.NET 4.0, C#, J-Query, XML, MS SQL Server 2017, HTML | Team Size: 3

Role & Responsibilities: Working in business logics (coding), Data Access Layer, Developing Saving Modules, write query, SP, Functions, Tables etc.

Description: Jal Shakti Abhiyan is application software for the Department of Drinking water and Sanitation. This software gets different activities from the state/department/organization/Ministry.

Project: Jal Jeevan Mission (Entry Module)

Client: Ministry of Jal Shakti | URL: https://ejalshakti.gov.in/JJM/JJMLogin.aspx | Technologies: ASP.NET, C#, J-Query, SQL Server-2008 with Stored Procedures, Functions | Team Size: 6

Role & Responsibilities: I was involved in Development, part of the SDLC of the project and also part of database designing. Implementation of e-commerce changes to development, and testing.

Description: This is a National level web application which is used for the entry module where we enter all the information about Water Supply schemes and Water Quality data in rural areas. There are many roles for users i.e. Admin level, State level, District level, Zone level, Circle level and Division level. Admin restrict the user based on permission.

Project: Jal Jeevan Mission (Entry Module & R&D Portal)

Client: Ministry of Jal Shakti | URL: https://ejalshakti.gov.in/misc/RndDProject/ProjectLogin.aspx | Technologies: ASP.NET, C#, J-Query, SQL Server-2008 with Stored Procedures, Functions | Team Size: 2

Role & Responsibilities: I was involved in Development, part of the SDLC of the project and also part of database designing. Implementation of e-commerce changes to development, and testing.

Description: Jal Jeevan Mission is being implemented in partnership with States, to enable every household in villages to have functional household tap connection by 2024. The rural drinking water supply is a complex subject with various social, environmental and technical challenges. National Jal Jeevan Mission is inviting proposals from young minds, researchers, academia, entrepreneurs, start-ups working in this sector to provide cost effective solutions and fill knowledge gaps.

EDUCATION SUMMARY

- MCA from SMU University (2016) — Delhi
- BCA from Mohanlal Sukhadia University, Udaipur (2010) — Kota
- Intermediate from BSER, Rajasthan (2007) — Kota
- S.S.C from BSER, Rajasthan (2004) — Kota

SKILLS & STRENGTHS

- Good leadership quality.
- Ability to grasp any new technology in a short period.
- Participated in many events & youth fests as a volunteer in university.

AREAS OF INTEREST

- Reading books related to technology, personal development, and problem-solving
- Playing Games
- Listening to Music

PERSONAL DETAILS

Name	Naveen Mishra
Father's Name	Pramod Mishra
Date of Birth	02 Aug 1990
Gender	Male
Nationality	Indian
Languages Known	English, Hindi

DECLARATION

I hereby declare that the above information given by me is true to the best of my knowledge.

Date:
Place: New Delhi

Signature of the applicant

(Naveen Mishra)
